

# WAX RECOMMENDATION

## AMH Anchorage Cup Hickok Pursuit

Kincaid Park, Anchorage, AK

Sunday, January 18

Noon

12:06 P.M. Relay Team start

5K Classic/5K Skate

Mass Start Classic

1 classic loop, 1 skate loop

Forecast/Conditions: Saturday night, chance of snow, lows 15 to 25. Sunday, chance of snow, high 15 to 25, low 5 to 15 F. Expect old, dirty, wet snow unless we get a good dump. New snow will be machined with old snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Moly, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth. Check at the TOKO tent/easel in the bunker for updated grip wax recommendation.

Structure: One pass with coarse linear roller covered by one pass with the coarse nonlinear roller of a TOKO structurite tool (before Jetstream application) will best suit these conditions. Or a warm universal stone grind.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
