

WAX RECOMMENDATION **TOKO**[®]

Besh Cup #1 Junior Olympic Qualifier

Kincaid Park, Anchorage, AK

Saturday, December 20

1K Freestyle Sprint

Qualifier followed by Quarter, Semi and Final heats

10 A.M. Qualifier

Heats start at 12:20 P.M.

1 Lap Sprint Course Loop

Forecast/Conditions: Friday night lows near 15F to 20F with slight chance of snow. Saturday, mostly cloudy, high in the 20s. The snow is old and dry and has been groomed several times.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush, and polish with a thermopad.

Structure: A fine linear structure, covered by one pass with the fine-linear wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
