

WAX RECOMMENDATION

Anchorage High School Skiathlon

Kincaid Park, Anchorage, AK

Saturday, January 17

11 A.M.

5K Classic/5K Skate

Mass start classic

1 classic loop, 1 skate loop

Forecast/Conditions: Friday night, chance of rain and snow, lows in the 30s. Saturday, rain and snow likely, highs in the 30s. Expect old dirty wet snow unless we get a good dump. Any new snow will be machined with old snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Moly, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth. Check at the TOKO tent/easel in the bunker for updated grip wax recommendation.

Structure: One pass with coarse linear roller covered by one pass with the coarse non-linear roller of a TOKO structurite tool (before JetStream application) will best suit these conditions. Or a warm universal stone grind.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
