

WAX RECOMMENDATION

Service High School Snowball Classic

Service High School, Anchorage, AK

Saturday, December 6

11 A.M. wave start

5.3K Classic

UPDATED Forecast/Conditions: Friday night, cloudy with chance of snow, lows in teens to mid 20s. Saturday, mostly cloudy with chance of snow, highs in upper 20s to mid 30s. Abrasive old snow mixed with new snow.

Glidewax: Apply LF Moly scrape and brush. Apply HF Red, scrape and brush. Finish by rotocorking Jetstream Red, brush with a dedicated nylon polishing brush, and buff with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper
Iron in Base Green Binder. Tracks will glaze. Consult Toko easel near start for grip wax test results.

Structure: Universal Stonegrind or one pass with Toko
Structurite on Coarse Non-linear before ironing in the HF layer.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
