

WAX RECOMMENDATION **TOKO**[®]

National Masters Championships 10K Classic

Kincaid Park, Anchorage, AK

Thursday, March 5

6 P.M. Women

7 P.M. Men

Wave start

2 Laps of the Mize Loop

Forecast/Conditions: Wednesday night, snow likely, low in the 20s. Thursday, snow likely, high in the low to mid 30s. Thursday night, snow likely, low 20 to 25. Trails should be clean from new snow this week and in excellent condition.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Check with TOKO in the bunker for updated grip wax recommendation.

Structure: A fine universal structure covered by one pass with the coarse non-linear wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
