

WAX RECOMMENDATION

Tour of Anchorage

Service HS/Russian Jack Spring Park to Kincaid Park, Anchorage, AK
Sunday, March 7

Multiple Wave Starts to Kincaid Park finish

8:30 A.M. 40K/50K Elite Skate, Service HS

9 A.M. 40K/50K Classic, Service HS

10 A.M. 40K/50K Skate, Service HS

9:30 A.M. 25K Classic, Russian Jack Springs Park

10 A.M. 25K Skate, Russian Jack Springs Park

Forecast/Conditions: Possible snow accumulation 2-6 inches Thursday. Saturday snow likely. Overnight low 5F to 15F. Sunday low 5F to 15F, high near 25. If no new snow, expect dirty course. The race always starts cold and warms toward Kincaid.

Glidewax: Apply LF Moly, scrape and brush, then for the 40K/50K apply HF Blue/HF Moly mixed 1:1, scrape and brush. For the 25K apply HF Blue/HF Moly mixed 1:1, scrape and brush. Finish by rotocorking JetStream Blue/JetStream Red for the 40K/50K and JetStream Red for the 25K, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 120 grit sandpaper, iron in Carbon BaseWax Green, cork smooth. Check at the TOKO tent for updated grip wax recommendation. Consider 2 thin layers Carbon Red covered with 2 thin layers Carbon Viola.

Structure: A cold universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
