

# WAX RECOMMENDATION

## ASD HS Region IV Championships

Kincaid Park, Anchorage, AK

Saturday, February 20

11 A.M.

Boys 4 X 5K; Girls 4 X 3.7K; Boys Open 5.3K; Girls Open 3.7K

Classic Relay

Mass Start

One Lap Per Racer

Forecast/Conditions: Friday cloudy with scattered rain and snow showers. High around 40. Friday night low mid-20s to mid-30s. Saturday mostly sunny, high in the 30s. Snow has deteriorated with high temperature and rain. Expect dirty and wet conditions.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Yellow/HF Moly mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red/JetStream Yellow mixed 1:1, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon Klister Base Green, cork smooth, let cool. Check with Toko for updated recommendation.

Structure: A warm universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions. If new snow is on the course use the Yellow TOKO Structurite tool.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
