

WAX RECOMMENDATION

Besh Cup #2 JO Qualifier

Beach Lake Trails, Chugiak High School, Chugiak, AK

Sunday, Dec. 20

11 A.M. (younger skiers will race first)

J6 1K; J5/J4 2K; J3/J2 5K

J1/OJ/Sr/MA-W10K; M 15K

Interval Start

1 lap

Forecast/Conditions: Friday night 0F to -10F. Saturday mostly cloudy with a chance of snow. High 5F to 15F. Sat night lows 0F to 10F above. There is new snow at Chugiak so the course should be in great condition.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Please check at the TOKO tent for up to date kick wax recommendation.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
