

WAX RECOMMENDATION

HS Service Snowball Skate Race

Service High School, Anchorage, AK

Saturday, Dec. 5

11 A.M. AB Boys and AB Girls, CD Boys and CD Girls

5.3K Freestyle

Interval Start

1 Lap

Forecast/Conditions: Friday mostly cloudy, high in the low to mid 20s, Friday night low 10 to 20. Saturday mostly cloudy, high in the mid 20s to low 30s. Old, transformed snow unless something new falls.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A.

Structure: A fine linear structure covered by one pass with the medium offset wheel of a TOKO Structurite tool or the new Structurite Red (before JetStream application) will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
