Saturday, January 16

11 A.M. A&B Boys; Noon A&B Girls; 1 P.M. C, D, Open

5K Classic, 5K Skate

Mass start pursuit

1 lap classic loop followed by 1 lap skate loop

Forecast/Conditions: Friday night mostly cloudy with a chance of snow, low 15 to 20 above. Saturday cloudy with a chance of snow, high maybe reaching lower 30s. Expect new snow mixed with the old, abrasive snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Check with TOKO for the recommended kick wax.

Structure: A universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
