

WAX RECOMMENDATION

January Jaunt Distance Series

Birch Hill, Fairbanks, AK

Sunday, January 10

11 A.M.

10K/20K Classic

Mass start

2 Laps of the 10K course

Forecast/Conditions: Overnight low -15F, temp at start -5F, old snow, mostly cloudy.

Glidewax: Apply LF Moly/LF blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 3 layers of Carbon GripWax Mint, corking between layers.

Structure: A cold grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
