

WAX RECOMMENDATION **TOKO**[®]

Paco's President's Cup

Tahoe Donner Cross Country, Truckee, CA

Monday, February 16

10 A.M.

15K/7K Skate

Wave start

1 lap

Forecast/Conditions: Snow and snow showers on Sunday into the night, with overnight low in the low 20s. Monday high of 33, mostly cloudy. Fresh snow, soft track conditions. The course's significant climbs are shaded and have colder snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Blue 2:1, scrape and brush. Finish by rotocorking JetStream Red, brushing with a dedicated nylon polishing brush, and polishing with a Thermopad. HelX Red or last year's JetStream High Speed Moly would be suitable fluoro alternatives to JetStream Red.

Gripwax: N/A

Structure: A soft flex ski with a fine grind will best suit the course's conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
