

WAX RECOMMENDATION

Royal Gorge Midseason Race

Royal Gorge Ski Center, Soda Springs, CA

Sunday, February 28

10 A.M.

10K

Mass Start; 1 lap

Forecast/Conditions: Saturday Low of 27 with High of 35 and a 70 percent chance of snow. Sunday low of 18; race start temperature 25 and a high of 39. Partly cloudy. Expect soft tracks and clean, sun affected snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow (or old JetStream High Speed), brush with a dedicated nylon polishing brush and polish with a thermopad. Helx Yellow or Helx Warm as a final layer would be suitable as well.

Gripwax: N/A.

Structure: A Medium to Soft ski with universal grind covered by one pass with the TOKO Yellow Structurite tool (old coarse offset wheel) after JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
