

# WAX RECOMMENDATION

## Sierra Nordic Relays

Tahoe Donner XC, Tuckee, CA

Sunday, February 21

10 A.M.

3 x 5K Relay

Mass start

Forecast/Conditions: Saturday high of 40 with overnight low of 26. Late afternoon snow showers. Sunday at 10 A.M. expect 23 degrees with high of 37. Light snow showers. Expect moderate to softening conditions.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow (or old Jetstream Moly), brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Apply Carbon Klister Base Green, let cool. Cover with Klister MultiVoila. Add short section of Klister Orange under foot for more kick.

Structure: A Medium flexed ski with fine linear grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
