

WAX RECOMMENDATION

Sierra Skogsloppet and JOQ

Tahoe Donner XC Center, Truckee, CA

Monday, January 18

10 A.M.

5K/15K Skate

Mass Start

7.5K lap and 5K Loop

Forecast/Conditions: Sunday high of 38 with overnight low of 22. Breezy with 60 percent chance of snow. Monday race time 26 with high of 34. Breezy with 80 percent chance of snow. Expect soft, windblown tracks and clean powder snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad. For that extra speed, polish ski with yellow side of thermo pad, spray on Helx Red (or Helx Warm), let dry and polish with white side of the Thermopad.

Gripwax: N/A.

Structure: A soft ski with a progressive flex and a medium linear grind covered by one pass with the Yellow TOKO Structurite tool (old coarse offset wheel) after JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
