Sunday, December 18

10 A.M. and 11 A.M.

2K/4K/6K Skate

Interval and Mass starts

2K Laps

<http://www.auburnskiclub.org>

Forecast/Conditions: Saturday low of 4F, high of 28. Light east winds and clear skies will keep it cold. Sunday low of 12, 24 at race start, and high of 30. Partly cloudy. Light breeze.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A.

Structure: A cold snow grind covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
