

WAX RECOMMENDATION **TOKO**[®]

Alpenglow 20KM Race

Tahoe Cross Country Center, Tahoe City, CA

Sunday February 10

20K or 5K Free

Race Start 10AM

Mass Start

Forecast/Conditions: Transforming snow, slightly dirty.

Weather: Saturday high 45F, mostly sunny. Saturday nighttime low 19F. Sunday high upper 40s F with cloudy skies. Race start temperature 32F. 20% chance of rain/snow.

Glidewax: Apply LF Moly scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Moly, brushing with a dedicated nylon polishing brush, and finally, polish with a thermopad. HelX Warm would make an excellent alternative to JetStream.

Gripwax: NA

Structure: A fine linear pass, followed by a fine offset pass from the TOKO Structurerite tool will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HelX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork at the expense of durability.
