

WAX RECOMMENDATION

Tahoe Donner Relays

Tahoe Donner XC Center, Truckee, CA

Sunday February 24

3X5K Relays, 1st Leg Classic

10AM Start

Forecast/Conditions: Snow showers from now through Sunday. Saturday: Low of 15F and High of 34F. 50% chance of snow. Light Breeze. Sunday: Low 20F, 25F at Race Start, high of 32F. 70% chance of snow.
Breezy.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush out well. Rotocork JetStream Moly (Skate) or JetStream HighSpeed (Classic), brush with a nylon polishing brush, and polish with a thermopad.

Gripwax: Roughen kick zone with 150 grit sandpaper, iron in Toko Base Green Binder. Cover with 2-3 layers of Carbon Blue, then 2 layers of Carbon Red to finish.

Structure: A cold grind with one pass from the fine offset wheel of a Toko Structurerite tool will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HeiX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork as the expense of durability.
