

WAX RECOMMENDATION **TOKO**[®]

Catamount Marathon

Steamboat Springs, CO

Saturday, February 21

9 A.M.

20K/40K Skate

Mass start

1 or 2 lap course

Forecast/Conditions: Friday night low of 6, Saturday high of 38, mostly sunny.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue/HF Red mixed 1:1, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Blue, corking between layers.

Structure: Medium linear structure covered by one pass with the fine-linear wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
