

WAX RECOMMENDATION

Colorado Biathlon Series

Snow Mountain Ranch, Granby, CO

Saturday, Dec. 19

9 A.M.

2 x 7.5K Relay

Forecast/Conditions: Overnight low of 8F with 9F at start. Expect mostly sunny skies and zero chance of snow. The track will be snowmobile pack with the possibility of thin conditions in some areas. However, track conditions will not be too soft because of the previous days' warmer conditions.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions, or Boulder Nordic Sports ZR1.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
