

WAX RECOMMENDATION **TOKO**[®]

Grand Mesa Winterstart

Skyway Nordic Ski Trails, Top of Grand Mesa, CO

Sunday, Dec. 6

11 A.M. Classic, 12:30 P.M. Skate

5K

Forecast/Conditions: Saturday night low of 6, and a noon high of 12. Expect mostly cloudy conditions with a 40 percent chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush making sure to do a very good job of brushing. Finish by rotocorking in JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Mint, corking between layers.

Structure: Fine grind - Boulder Nordic Sports ZR1 or 1 pass with the Blue Structurite tool (prior to JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
