

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## **Grand Mesa Classic**

Skyway Nordic Ski Trails, Top of Grand Mesa, CO

Sunday, January 31

11 A.M.

10K Classic

Mass start

Forecast/Conditions: Saturday night low of 16, and 25 at race start. Expect mostly cloudy conditions with a 60 percent chance of snow. Track should be well groomed since the groomer has been out since Wednesday.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue/HF Red mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Viola, corking between layers.

Structure: Fine grind - Boulder Nordic Sports ZR1 or 1 pass with the Blue Structurite tool, (prior to JetStream application) will best suit these conditions.

**Racing - Service**

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
