10:45 A.M. and later for all others

10K/5K/2.5K Skate

Individual Start

2.5K loop

<http://www.rmnnordic.org/?p=578>

Forecast/Conditions: Overnight low of zero F with an air temp of 5F at the start of womens races warming to 21 by noon. The course will be a mixture of manmade and new snow. Expect cold, dry and very abrasive conditions.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

***Note: Overlays are only allowed in the NCAA starting positions.**

Structure: A very fine linear grind will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
