

WAX RECOMMENDATION **TOKO**[®]

Two Harbors Winter Frolic

Erik Harju Ski Trails, Two Harbors, MN

Saturday, February 7

11 A.M., 1K Youth Sprint

11:30 A.M., 6K Classic

Forecast/Conditions: Expect a machine worked track with a slight chance of new snow Friday night into Saturday. Temperature Friday night is expected to get into the low 20s. Race time temperature should be in the mid 20s.

Glidewax: Apply LF Moly, scrape and brush. Then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply several layers of Carbon GripWax Viola, corking between layers. Those needing extra kick should use Carbon Red.

Structure: A Universal Structure will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
