

WAX RECOMMENDATION **TOKO**[®]

Buena Vista Snowjourn

Buena Vista Ski Area, Bemidji, MN

Saturday, February 28

10 A.M.

12K Classic and Skate

Forecast/Conditions: Expect a firm base covered with fresh snow falling on Thursday at temperatures below 10 degrees. Friday evening low near -10F with race time temperature near zero. Partly sunny with a slight breeze

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Mint, corking between layers. Those who desire more kick should apply Carbon White.

Structure: Cold grind or fine linear grind. No additional structure is required.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
