

WAX RECOMMENDATION

Governor's Cup

Camp Ripley, Little Falls, MN

Saturday, January 24

25K Classic, 11:30 A.M.

25K Skate, Noon

Mass starts, single loop

Forecast/Conditions: Expect a hard-packed race course and firm tracks. Friday night low around -20 F. Saturday should be mostly sunny with race temperatures from -10 to -5 F.

Glidewax: Apply LF Blue scrape and brush. Apply a LF Blue/LF Moly mix scrape and brush. Then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth, let cool. Then apply several layers of Carbon GripWax Mint, corking between layers. Those needing extra kick should use Carbon White.

Structure: A cold stonegrind will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
