

WAX RECOMMENDATION

Lotvola Cup

Maplelag Resort, Callaway, MN

Saturday, March 7

1 P.M.

12K Classic

Forecast/Conditions: With above-freezing temperatures on Friday and the course being groomed late Friday or early Saturday, the conditions should be excellent. Compact base of 6-12 inches throughout the course. Friday evening low of around 12 with race time temp around 26. Mostly cloudy with a slight breeze.

Glidewax: Apply LF Moly, scrape and brush. Apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply several layers of Carbon GripWax Red, corking between layers. For those needing more kick, use Carbon Yellow.

Structure: Make two passes with Toko Structurite Course Linear after the HF Red layer

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
