

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## **Montebello Niteski**

Montebello Trails, Bemidji, MN

Friday, January 23

7 P.M.

6K Classic or 6K Skate

3 laps for all racers

Forecast/Conditions: Expect a firm race course of transformed snow. Friday afternoon highs near zero, falling to near 5 below at race time. Windy.

Glidewax: Apply LF Blue, scrape and brush. Apply a LF Blue/LF Moly mixed 1:1, scrape and brush. Then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth, let cool. Then apply several layers of Carbon GripWax Mint, corking between layers. Those needing extra kick should use Carbon White.

Structure: A Cold stonegrind will best suit these conditions.

**Racing - Service**

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
