

# WAX RECOMMENDATION

## Mt. Ashwabay Summit Ski Race

Mt Ashwabay Chalet, Bayfield, WI

Saturday, January 31

10:30 A.M.

11K Skate

Wave start

Forecast/Conditions: Expect a firm pack of transformed snow. Friday night low in the high single digits. Race temps in the high teens. Windy and partly sunny.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A fine linear structure covered by one pass with the fine-linear wheel of a Toko structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
