

WAX RECOMMENDATION

Rainbow Resort West Itasca/JOQ

Rainbow Resort, Waubun, MN

Sunday, January 4

Races starting from 9:30 A.M. through 1:30 P.M.

10K/5K Skate, using a 5K loop

Interval start

Forecast/Conditions: Expect hard packed, dry, abrasive snow. Unlike other Midwest venues, Rainbow does not have an icy base under the recent snowfalls. Chance of snow Saturday is 80 percent. Saturday evening lows and temperatures throughout the races expected to be near zero. Cloud cover less than 50 percent.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush. Apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush, and polish with a thermopad.

Structure: A fine linear structure, covered by one pass with the fine-linear wheel of a TOKO structurite tool before JetStream application, will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
