

WAX RECOMMENDATION

River View Loppet

After Hours Ski Trails, Brule, WI

Saturday, February 28

10 A.M.

12K Classic, 12K/24K Skate

Interval start

Forecast/Conditions: Expect a firm base covered with fresh snow falling in on Thursday at temperatures in the low 20s. Friday evening lows near -5F with race time temperature around 5. Calm and partly sunny.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Mint, corking between layers. Those who desire more kick should apply Carbon White.

Structure: Cold grind or fine linear. No additional structure is required.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
