

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## **Twin Ports Championships**

Snowflake Ski Center, Duluth, MN

Sunday, March 1

10 A.M.

15K Skate

Forecast/Conditions: Expect a firm base of machine packed snow. The area received a light snowfall Thursday PM. Saturday evening low near zero, with race time temperature in the high single digits. Mostly sunny with a slight breeze.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: Cold or fine linear grind. Additional structure is not required.

**Racing - Service**

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
