WI High School State Championships - High School Races

Minocqua Winter Park, Minocqua, WI

Saturday, February 7

9 A.M., HS Girls 5.5K Classic

10 A.M., HS Boys 5.5K Classic

1:30 P.M., HS Girls 6K Skate Pursuit

2:30 P.M., HS Boys 6K Skate Pursuit

Forecast/Conditions: Expect a machine worked track with a slight chance of mixed precipitation Friday night into Saturday. Temperatures Friday night are expected to get into the mid to high 20s. Race time temperatures should be in the high 20s to low 30s.

Glidewax: Apply LF Moly, scrape and brush. Then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brushing with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply several layers of Carbon GripWax Red, corking between layers. Those needing extra kick should use Carbon Yellow.

Structure: A Warm Universal Stonegrind will best suit these conditions. Or one pass with the coarse-offset wheel followed by one pass with the fine-linear wheel of the Toko Structurite tool.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
