

WAX RECOMMENDATION

TOKO[®]

Greenbush Ski Race and Winterfest

Greenbush Ski Area, Greenbush, WI

Sunday, January 11

9 A.M. Mass start Middle School Race, 3K

9:15 A.M. Mass start High School Race, 6K

10:30 A.M. Mass Start, 15K

Forecast/Conditions: Fresh snow in the days leading up to the event will be machine worked and packed. Expect firm conditions. Saturday night low of 5F. Expect race time temperature in the low teens.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: N/A

Structure: A very fine linear structure covered by one pass with the fine-linear wheel of a TOKO structurite tool before HF Blue application will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
