

WAX RECOMMENDATION **TOKO**[®]

Moraloppet

Mora, MN

Saturday, January 31

1 P.M.

7K Skate

1 loop

Forecast/Conditions: Expect hard packed, transformed, clean snow conditions. These are the best snow conditions in Mora for the past several years, so enjoy. Flat course mainly through the woods. Overnight low temperature in the mid teens. Temperature at start in the mid 20s. Partly sunny.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: Universal stonegrind covered by one pass with the fine-linear wheel of a Toko structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
