

WAX RECOMMENDATION

Michigan HS Championships Sprint

Michigan Tech Nordic Training Center, Houghton, MI

Sunday, February 15

1K Skate sprint

9:30 A.M., Qualification, Interval start

Noon, Quarterfinal Heats

Forecast/Conditions: Overnight low in mid-teens steady up to qualification start time. Quarterfinal start temperature rising to 20. Expect machine tilled and packed conditions with a slight chance of new snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine linear structure covered by one pass with the fine-linear wheel of a TOKO structurite tool (before JetStream application) will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
