CXC Skiing SuperTour at Telemark - UPDATE

Telemark Lodge - Cable, WI

Sunday, January 31, 2010

9:30 am - Men's 15km Freestyle Mass Start, 2 laps

10:45 am - Women's 10km Freestyle Mass Start 2 laps

11:45 am - J2/HS/Citizen 5km FS Mass Start (Male)

Forecast/Conditions: Overnight low around -7°F rising to around -4°F for the Men's race, 4°F for the Women's race and 8°F for the latest starters. Expect a machine worked, packed powder trail.

Glidewax: Women's and Men's starters apply LF Blue, scrape and brush. All apply LF Blue/LF Moly mixed 1:1, scrape and brush. Finally, all apply LF Blue and X-Cold Powder, scrape and brush. Finish by rotocorking JetStream Blue, brushing with a dedicated nylon polishing brush, and polish with a thermopad.

Gripwax: N/A

Structure: A very fine linear structure will best suit these conditions. No additional structure may be required.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
