

WAX RECOMMENDATION

Lakeland Loppet

Minoqua Winter Park, Minoqua, WI

Saturday, March 6

9 A.M. 8K Classic

9:30 A.M. 8K Skate

11 A.M. 25K Classic -- Mass Start

11:15 A.M. 25K Skate

Wave starts (5 minute waves) except 25K Classic

Forecast/Conditions: Patchy fog after midnight, otherwise clear with a low around 15. Temperature rising to 25 for 8K starts and 32 for 25K starts. Expect machine worked and packed conditions.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Viola, corking between layers for 8K. Apply 3-4 layers of Carbon GripWax Yellow for 25K.

Structure: A universal grind covered by one pass with the Red TOKO Structurite tool (old medium offset wheel) before JetStream application will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
