

WAX RECOMMENDATION

Wisconsin High School Championships

Nine Mile State Forest Trails, Wausau, WI

Saturday, February 13

Classic Interval Start: 9 A.M. Boys; 10 A.M. Girls

Skate Pursuit Start: 1:30 P.M. Boys; 2:30 P.M. Girls

5.5K Course

Forecast/Conditions: Low temperature overnight near 9F with light snow possible, rising to 10-15 at Classic race time and to 24 at Skate race time. Expect a moderately firm track with recent snow machine-worked into the trail.

Glidewax: Classic: Apply LF Moly, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad. Skate: Use the same technique as above, but substitute with HF Blue/HF Red mixed 1:1 and JetStream Red.

Gripwax: Roughen base with 150 grit sandpaper, iron in Carbon BaseWax Green, cork smooth, let cool. Then apply 2-3 layers of Carbon GripWax Blue, corking between layers. Those requiring less kick use Carbon White, and those requiring more use Carbon Viola.

Structure: A fine linear grind covered by one pass with the Blue TOKO Structurite tool (old fine-linear wheel) before JetStream application will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
