

WAX RECOMMENDATION **TOKO**[®]

24 Hours of Telemark

Telemark Resort, WI

Saturday through Sunday

5K loop

Forecast/Conditions: Friday night low 22F, Saturday high 37F. Saturday night low 28F. Chance of wintery mix. Sunday high 38F, slight chance of rain/snow.

Glidewax: Apply LF Moly scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Moly, polishing well with a dedicated nylon polishing brush, and finally, buff with a thermopad. HelX cold would make an excellent alternative to JetStream.

Gripwax: NA

Structure: A warm structure or a light rill will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HelX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork at the expense of durability.
