

# WAX RECOMMENDATION

## Telemarker Challenge

Telemark Trails, Cable, WI

Saturday, January 7

11 A.M. 10K Adult

Noon 5K HS

1 P.M. 3K Middle School

Skate

Forecast/Conditions: We expect a machine worked track with good conditions from recent snow. Friday evening temperature is expected to dip into the low 20s with race time temperature in the mid-20s. Expect mostly cloudy skies with a slight chance of snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A universal grind covered by one pass with the Red Structurite tool before JetStream application will best suit these conditions.

**Racing - Service**

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to [www.TokoVideos.com](http://www.TokoVideos.com).
