

WAX RECOMMENDATION

TOKO[®]

King Boreas

MOVED to Green Acres Recreation in Lake Elmo, MN

Sunday, January 8

9 A.M. 10K (4 laps) Mass Start Skate & 5K HS

9:45 A.M. 5K (2 laps) Skijor Race

10:15 A.M. 5K Snowshoe Race

Forecast/Conditions: We expect a well-skied-in track with a mixture of manmade and natural snow. Saturday evening temperature is expected to dip into the upper teens with race time temperature in the low 20s. Expect partly sunny skies.

Glidewax: Apply LF Moly, scrape and brush, then apply a mix of HF Blue/HF Moly, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A universal grind covered by one pass with the Red Structurite tool, before JetStream application, will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in. To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
