

WAX RECOMMENDATION

Michigan Tech Christmas Classic

Michigan Nordic Training Center, Houghton, MI

Saturday December 15, 2007

5K or 10K Freestyle

10K individual starts begin at 10:00AM (EST),

5K begins after all 10K starters

Forecast/Conditions: Friday night's low around 7F, with Saturday afternoon's high around 19F. Expect possible soft track conditions with new snow expected Thursday and Friday.

Glidewax: Apply LF Moly/LF Blue (1:1 mix), scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream High Speed Moly, polish well with a dedicated nylon polishing brush, and finally buff with a thermopad.

Gripwax: N/A

Structure: A fine to a fine-linear stonegrind will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HeIX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork at the expense of durability.
