

# WAX RECOMMENDATION

## Snowflake & Inga-Lami Races

Baker Park, Maple Plain, MN

Saturday, February 16

10K Men's Freestyle @ 9:00am

10K Women's Skate or Classic @ 9:45am

5K Tour @ 9:46am

Forecast/Conditions: Expect machine worked and packed powder with a firm track due to the cold temperatures Thursday and Friday following the fresh snow. **Friday Night**...Partly cloudy, with a low around -4. **Saturday**...Mostly cloudy with an afternoon high of around 26.

Glidewax: Apply LF Blue, scrape and brush. Apply a mixture of LF Moly/LF Blue, scrape and brush. Then apply a mixture of HF Blue/Nordlite X'Cold Powder, scrape and brush. Finish by brushing out ski trailside after skis have cooled to outside temperatures.

Gripwax: Sand kick zone lightly with 150 grit sandpaper. Apply Toko Base Green, heat and spread with a synthetic cork. Cover with 2-3 layers of Toko Carbon White. Those needing extra kick should use Toko Carbon Blue.

Structure: A fine linear stonegrind will best suit these conditions.

Racing - Service

---

Check the Waxtip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (Helix, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork as the expense of durability.
