

WAX RECOMMENDATION

Andes Loppet

Andes Tower Hill, Kensington, MN

Saturday, March 1

15K Freestyle @ 11am

Forecast/Conditions:

Friday Night...Partly Cloudy with a low around 10. **Saturday**...Mostly sunny with an afternoon high of around 37.

Glidewax: Apply LF Moly, scrape and brush. Then apply a mixture of HF Blue/HF Red at a 2:1 ratio (2 parts blue to 1 part red) , scrape and brush. Finish by rotocorking Jetstream Moly, brushing afterwards with a dedicated nylon polishing brush, and finally, polish with a Thermopad.

Gripwax: N/A

Structure: A fine to universal stonegrind will best suit these conditions.

Racing - Service

Check the Waxtip page at www.TokoUS.com before all of your races for the latest waxing information.

The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (HelX, JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red, Blue). Additionally, for those who do not have a rotocork (for applying JetStream), this step can be replaced by vigorously corking with a dedicated Plasto Cork as the expense of durability.
