

WAX RECOMMENDATION **TOKO**[®]

CNGB Championships

Ethan Allen Firing Range, Jericho, VT

Monday, March 2

10 A.M.

10K Sprint Men, 7.5K Sprint Women

Individual Start

Multiple Laps

Forecast/Conditions: Overnight low near 10F, high of 25. Snow temp will remain colder at start with little warming for later starts. The track will be well groomed and worked over new snow mixed with older snow and ice from last week's rain/freeze event.

Glidewax: Apply LF Blue/LF Moly mixed 1:1, scrape and brush, then apply HF Blue, scrape and brush. Finish by rotocorking JetStream Blue, brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: N/A

Structure: A fine linear (cold) grind will best suit these conditions.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
