

WAX RECOMMENDATION **TOKO**[®]

CNGB Championships

Ethan Allen Firing Range, Jericho, VT

Saturday, March 7

10 A.M.

4 x 7.5K Relay

Mass start

Multiple laps

Forecast/Conditions: Overnight low near 32, high of 43. Chance of snow Friday night prior to the race. Snow temps will remain stable throughout the race. The track will be well groomed new snow over worked over older snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Yellow, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: A fine linear structure covered with two passes with a fine linear wheel of a Toko structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
