

WAX RECOMMENDATION **TOKO**[®]

35th Annual Mount Washington Cup Skate Race

Bretton Woods Nordic Center, Bretton Woods, NH

Sunday, March 15

11 A.M.

15K Skate

Mass start

Forecast/Conditions: Saturday night low 19, mostly cloudy.
Sunday sunny with a high of 41. Snow temp will be low 20s warming to low 30s. Snow will be granular.

Glidewax: Iron on LF Moly, scrape and brush. Iron on HF Red/HF Yellow mixed 1:1, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: Use a Warm universal snow grind or 2 passes of the Coarse Offset Structurite Tool after the HF wax and before applying the JetStream.

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
