

# WAX RECOMMENDATION

## **Sugarloaf Inferno**

Sugarloaf Outdoor Center, Carrabassett Valley, ME

Sunday, March 15

10 A.M.

Freestyle on any free-heel Nordic equipment

Mass start, point to point from top to bottom

Start at Whiffletree. Pick up bib at O.C.

Forecast/Conditions: Saturday night, clear with temps from 5 to 15. Sunday high in the mid-30s. Snow temp should be upper teens to mid-20s. Granular snow.

Glidewax: Apply LF Moly, scrape and brush, then apply HF Red, scrape and brush. Finish by rotocorking JetStream Red, brush with a dedicated nylon polishing brush and polish with a thermopad.

Structure: Use a ski with a Universal grind or add a fine linear structure, created by two passes with the fine-linear wheel of a TOKO structurite tool (before JetStream application).

Check the WaxTip page at [www.TokoUS.com](http://www.TokoUS.com) before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
