

WAX RECOMMENDATION **TOKO**[®]

Breadloaf High School Race

Breadloaf Rickert Ski Touring Center, Ripton VT

Saturday, January 10

10 A.M.

Classic

Forecast/Conditions: Friday night low -3F. Saturday high of 16, cloudy skies. Icy hard base retilled with fresh snow. Expect cold, abrasive conditions.

Glidewax: Apply LF Moly/LF Blue mixed 1:1, scrape and brush, then apply LF Blue, sprinkle on Nordlite Powder X-cold, iron in together, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper. Iron in Carbon BaseWax Green, cork smooth, let cool. Test Carbon GripWax White and Carbon Blue.

Structure: A fine linear structure will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes available, skip the Fluorocarbon (JetStream) and substitute the LF or System 3 wax of the same color (Yellow, Red or Blue). For those who do not have a rotocork for applying JetStream, the next best thing is to iron it in.
